

Opportunity

Put your brand on products your customers trust.

Seize the opportunity to provide a superior product to your customers at a better price or take advantage of an unfilled need in your market.

Eco Chemical can show you how.

- Paints, stains and other specialty coating products
- Custom private label products tailored to your market
- Full range of packaging choices
- Backed by over 20 years of experience

We will help you define the market requirements, develop your product line, and work with your marketing and sales staff to support a successful launch

- You ask for it and we will build it
- We will take all the risk out of product development and performance testing
- Exclusively water-based, low VOC products
- Professional packaging and labeling options
- Professional marketing and sales program development support
- Technical, marketing and trouble-shooting support for as long as you want it

Partner with us to take advantage of your custom product or private label market opportunities for better profits and sales growth.

- Realize the potential for new, distinctive products for your customers
- Enrich the value of your brand
- Achieve incremental sales
- Improve your overall profit picture
- Seize the opportunity with minimal risk

The innovator in eco-friendly paints and stains.
